

**All engineering service companies are the same.  
And the earth is flat.**

**Etteplan Poland** provides design engineering services, technical documentation solutions and embedded systems and IoT services to the world's leading companies in the manufacturing industry. Our services are geared to improve the competitiveness of our customers' products and engineering processes throughout the product life cycle. The results of Etteplan's innovative engineering can be seen in numerous industrial solutions and everyday products. Etteplan company was founded in 1983. Currently Etteplan has offices in Finland, Poland, Germany, the Netherlands, Sweden and China, which together employ more than 2,500 specialists in various fields: industrial and consumer electronics, radio communications, technical documentation, software and embedded systems and the Internet Industrial (IoT).

In Poland the company has the office in Wrocław and Poznań, which has been operating since 2010 at the beginning of the name Espotel Poland, now Etteplan Poland. Since that time, there was built a team of over 120 experienced professionals.

## Technical Illustrator

**Place of work:** Wrocław

Technical Illustrator is responsible for creation of product illustrations, animations and deliverables for technical documentation used for installation, use and maintenance of products. Successfully research and gather information about the products for which illustrations are created, work closely with technical authors and translation coordinators, carry responsibility for deadlines and budgets. As an independent and result driven team player you have a central position in creating technical documentation.

### Education:

- Bachelor degree in technical field with very good results in education

### Expectation and qualifications:

- Knowledge of **Adobe Illustrator** and **Adobe Creative Cloud**
- Ability to create animations in Adobe Illustrator in SVG format
- Excellent communication skills (verbal and written, Polish and English)
- Technical sense and familiarity with the technical drawing standards
- Can work with a high degree of autonomy, preference for working in a team
- Knowledge of CAD/SolidWorks/ Catia is an advantage.

Professional experience as a Technical Illustrator is an advantage, but not a necessity. If you are enthusiastic and willing to learn, we'll train you internally to become a successful Technical Illustrator.

## Personality:

- Person has to be energetic
- Must be flexible and enjoy the challenge of managing rapid changes
- Has to learn fast (success in education)
- Good and active communication skills (transparency to work)
- Capable to integrate in dynamic and international teams

## We offer:

- Job with employment agreement
- The chance to work within a global company and interact with colleagues from around the world
- Opportunities that spark your imagination and ignite your passion to help others
- Challenging project which is a great opportunity for fast development
- Increased cost of income
- Private medical care
- Multisport card
- Lunch/ eyeglasses/ cultural events subsidies
- Company mobile phone
- Team events
- Business travel opportunities
- Interesting challenges
- Interesting trainings and professional development programs also available.
